

Academic Details

DEGREE	COURSE	INSTITUTE/ COLLEGE	% / CGPA	COMPLETION YEAR
B. Tech.	CSE (Data Science)	Presidency University, Bangalore	9.11/10	2024
XII	CBSE (Science)	Emmanuel Mission Sr. Sec. School	94.8%	2020
X	CBSE	Sri Satya Sai Vidyaniketan	95.4%	2018

Experience

Manager II – Planning Analyst | Zepto (June 2025 - Present)

- Designed scalable **inventory analytics pipelines** that provide visibility into stock with respect to consumption across categories.
- Built **brand and loss analytics dashboards** to highlight availability gaps and quantify inventory loss against ideal benchmarks.
- Automated **brand projections**, improving planning accuracy, and reducing operational dependency on manual processes.
- Delivered **Open PO and warehouse capacity views** to support prioritization, scheduling, and execution monitoring.
- Worked with cross-functional stakeholders to troubleshoot data issues and deliver fast, actionable insights.

Key Skills: SQL | Python | Databricks | Data Pipelines | Dashboarding | Inventory & Supply Chain Analytics

Project Undertaken

Priority Purchase Order (PO) Inwarding Workflow

- Designed a workflow to **prioritize released POs for inwarding** using inventory position and consumption signals.
- Enabled faster inwarding decisions for high-impact POs, helping improve availability and reduce operational delays.

Inbound Capacity Utilisation

- Built a **warehouse inbound capacity utilization view** to track inbound load versus available capacity in real time.
- Helped planners identify bottlenecks early, improving inbound scheduling and reducing congestion risk.

Minimum Stock Level Workflow

- Developed an **ideal inventory benchmarking framework** comparing current stock against expected consumption.
- Enabled proactive correction of overstock and understock scenarios, improving inventory health and planning efficiency.

Brand Projections Automation

- Built automated **brand-level projection pipelines** using historical trends and consumption patterns.
- Reduced manual planning effort while improving projection accuracy and turnaround time for decision-making.

University Chatbots

- Built a deep learning–based NLP chatbot trained on **3,000+ data points**, achieving **~95% accuracy** for student and parent queries.
- Improved user experience through intelligent query handling and a clean UI, reducing dependency on manual query resolution.

Trainings and Certifications

Data Analytics Essential - Cisco || BCG Data Science Virtual Experience Program - Forage || Databases and SQL For Data Science - Coursera

Skills and Proficiency

- Python (Intermediate)

- Statistics (Intermediate)

- Data Analytics (Intermediate)
- SQL (Intermediate)

- Power BI (Intermediate)

- R Programming (Beginner)
- Dashboarding (Intermediate)

- Alteryx (Beginner)

- Machine Learning (Intermediate)

Achievements and Responsibilities

- 2023:** Secured **2nd** position out of around **400 teams** in Tech Fest organized by VISIONET
- 2023:** Secured **3rd** Position out of **800 teams** participating in Tech Fest Hackathon organized by IIT Kanpur
- 2022:** Core Member of University Data Science Club (Forge - PU)
- 2018:** Selected for State-level Table Tennis Competition in Gujarat
- 2017:** Selected for Boys Scout troop
